A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. CEMENTED

Was the Bond of Fellowship Between the North and South at Atlanta.

PRESIDENT BANQUETTED

Georgia's Wealth and Business Interests Represented—The Chief Executive Proclaims a Reunited Country. John B. Gordon Delighted—Chicago Ex-Confederates Act.

Atlanta, Dec. 16.—In the beautifully decorated diningroom of the Kimball hotel at the Atlanta peace jubilee which brought to this city the president of the United States, several members of his cabinet and many distinguished figures of the war with Spain and resulted in utterances by the executive which have cemented hard and fast the bonds between the north and the south, was brought to a fitting close by an elaborate banquet. Covers were laid for 300. All the city's distinguished guests were present and seated at the president's table. The Atlantians attending the banquet were representatives of the city's wealth and business interests. Many prominent men from all parts of the south also graced the tables.

Hon. Clarke Howell of the Atlanta Constitution acted as toastmaster and introduced the president, who spoke in part as follows:

"Four years have gone since I last met the people of Georgia in public assembly. Much has happened in the intervening time. The nation has been at war, not within its own shores, but with a foreign power, a war waged not for revenge or aggrandizement, but for our oppressed neighbors, for their freedom and amelioration.

"It was short, but decisive. It recorded a succession of significant victories on land and sea. It gave new honors to American arms. It has brought new problems to the republic, whose solution will tax the genius of our people. United we will meet and solve them with honor to ourselves and to the lasting benefit of all concerned. The war brought us together; its settlement will keep us together; its settlement will keep us together.

"Reunited! Glorious realization! It expresses the thought of my mind and the long deferred consummation of my heart's desire, as I stand in this presence. It interprets the hearty demonstration here witnessed and the patriotic refrain of all patriotic and of all lovers of this republic.

"Reunited! One country again and one country forever. Proclaim it from the press and pulpit. Teach it in the schools. Write it across the skies. The world sees and feels it. It cheers every heart, north and south, and brightens the life of every American home. Let nothing ever strain it again.

"At peace with all the world and with each other, what can stand in the pathway of our progress and prosperity?"

It was a noticeable fact that in all the gorgeous decorations of the banquet hall not one Confederate flag appeared.

The president's train left Atlanta at an early hour this morning for Tuskegee.

General John B. Gordon.

Richmond, Ind., Dec. 16.—General John B. Gordon of Georgia, who lectured here last night, said in an interview concerning President McKinley's speech at Atlanta: "I have read the speech with much interest, and was greatly delighted with it. It was probably a surprise to some of our people, but it was not so to me. I have known President McKinley for a great many years and have had the profoundest respect for him as a man and a patriot. This Atlanta speech is in entire keeping with what I have known to be his liberal impulses toward the south for a

One of the most eminent and skillful specialists in the United States is the author of a great home medical work that every woman, whether young or old, should read. That physician is Dr. R. V. In his capacity as head of this institution, Dr. Pierce is surrounded by a staff of nearly a score of able physicians. With the assistance of this staff of physicians, during the past thirty years, Dr. Pierce has prescribed for many thousands of ailing women. A paper-covered copy is sent free on receipt of 21 one-cent stamps, to cover mailing, by the World's Dispensary Medical Association, Buffalo, N. Y. French cloth binding 31 stamps.

Every woman should read it. It tells about a medicine that cures all disorders and irregularities from which women suffer. This medicine is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs concerned in womanhood and motherhood. It makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, stops debilitating drains and soothes pain. It is the greatest of all nerve tonics. In the 'Medical Adviser' hundreds of women tell their experiences with this medicine. The 'Favorite Prescription' is for sale by all good medicine dealers.

number of years. He is a very broad man as well as a capable one."

Chicago Ex-Confederates Act. Chicago, Dec. 16.—Veterans of the confederate living in Chicago are very enthusiastic over the suggestion of President McKinley made in a speech at Atlanta that the national government should assist in caring for the graves of the confederate dead. A telegram heartily thanking the president for the steps he has taken in that direction and endorsing his sentiments, was sent to Atlanta yesterday by Post of the United Confederate Veterans' association.

Tinplate Trust

Officers Are Elected—Quay's Son In the Directory.

Chicago, Dec. 16.—Daniel G. Reid has been elected president of the American Tinplate company. W. B. Leads, who was the last chief executive of the old organization, is first vice president and Richard R. Quay of Philadelphia, a son of Senator Quay of Pennsylvania, was placed in the board of directors.

All the stockholders have received engraved certificates showing their investments. The capital stock of the combine is \$50,000,000 which will be divided into \$20,000,000 preferred and \$30,000,000 common. Already \$15,000,000 preferred stock and \$30,000,000 common stock have been issued.

Record Breaker of First Dimensions.

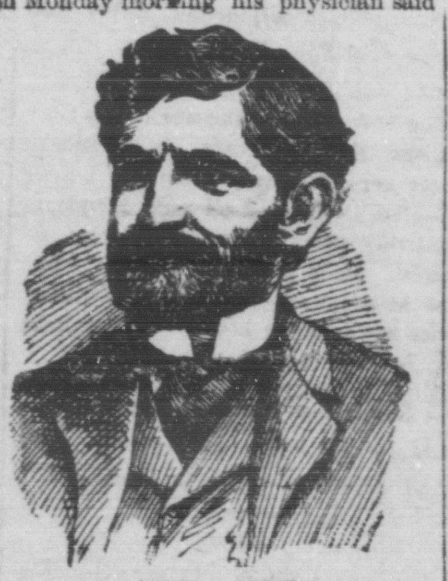

Buffalo, Dec. 16.—The grain blockade at this port continues and is unprecedented. Yesterday fully 90 large steamers were in the river waiting to be unloaded or frozen in. They carry about 9,000,000 bushels of grain, while in the different elevators 7,000,000 bushels are at present stored. This total of 16,000,000 bushels of grain afloat and temporarily in store is a record breaker of the first dimension.

BRICE IS DEAD

Former Senator From Ohio and Railroad Magnate Passes Away.

New York, Dec. 16.—Former United States Senator Calvin S. Brice died at his residence in this city of pneumonia yesterday. He contracted a severe cold one week ago.

On Friday last he took to his bed and on Monday morning his physician said

that pneumonia had developed. Every thing known to medical science was done to save him, but he grew steadily worse.

At Mr. Brice's bedside when he died were Mrs. Brice, Captain Stewart M. Brice, John Francis Brice, Miss Helen Brice and Miss Kate Brice. Another son, W. K. Brice, is on his way home from China. Mr. Brice was delicious for 24 hours before his death.

Calvin S. Brice was born at Denmark, O., Sept. 17, 1845, his father being William K. Brice, a Presbyterian minister, and his mother Elizabeth Stewart Brice. The family remained at Denmark for three years after the birth of Calvin, when they moved to Columbus Grove, O. When 15 years old he entered Miami University at Oxford, O. At the outbreak of the war young Brice enlisted in Captain Dodd's university company, one of the first to be formed. His company remained at Columbus, O., until the fall of 1861, when he returned to college only to re-enlist in April, 1862, in the Eighty-sixth Ohio Infantry. He remained in this organization during its summer campaign in West Virginia, and then returned to the university, where he was graduated in 1863. After graduating he removed to Lima, O., where for a time he taught school, and later on was appointed auditor of Allen county.

In July, 1864, he was commissioned captain of Company E, One Hundred and Eighty-fourth Ohio Infantry. He served in the field with the Twenty-third army corps in Tennessee, Virginia, the Carolinas and in Georgia until the close of the war. He was appointed lieutenant colonel, but never mustered in. He then studied law, was admitted to the bar in 1869 and began practice in Lima, O. His first experiences as a railroad lawyer was in the legal department of the Lake Erie and Louisville railroad. Shortly afterward he started the construction of the Nickel Plate railroad.

Mr. Brice began his political career as an elector at the Tilden electoral ticket in 1876 and in 1884 was an elector on the Cleveland ticket. He was a delegate to the Democratic National convention at St. Louis in 1888 and was selected to represent Ohio on the national committee in the ensuing year.

Upon the death of Mr. William H. Burdum in 1889 Mr. Brice was elected chairman of the Democratic National committee. In January, 1890, he was elected senator from Ohio for the term beginning March 4, 1891. He was actively engaged in many financial undertakings and left a fortune well up in the millions.

Colonel William L. Schley. Baltimore, Dec. 16.—Colonel William Louis Schley, veteran of the Mexican and civil wars, died at his home here yesterday of Bright's disease. He was born in Frederick City 74 years ago and was a first cousin of Rear Admiral Schley.

EXPLOSION

Of Gas Throws Wilson Broyles Ten Feet Into the Air—Fatally Injured.

MICHIGAN CITY HARBOR

Congressman Crumpacker Endeavoring to Secure Increased Appropriation For the Work—Ohio River Improvements at Madison—A Young Lady Suffering From Poisoning.

Gaston, Ind., Dec. 16.—Wilson Broyles was fatally injured while attempting to shut off the water coming out beside a 4-inch pipe in a natural gas well near here.

Thinking he had accomplished the work, he lighted a match and the gas ignited. A terrific report followed and Broyles was thrown 10 feet in the air, while great volumes of gas blazed up. Water spouted from the well and pipes were torn and twisted. Some heavy timbers fell on Broyles, inflicting injuries from which he cannot recover.

DAIRYMEN

J. J. Billings' Talk Before the Association at Mooresville.

Mooresville, Ind., Dec. 16.—Before the State Dairymen's association yesterday J. J. Billings of Marion county gave a resume of his methods in the dairy business. "Our business is to sell bottled milk. In the first place, we provide for our cows and make them as comfortable as possible, bedding them with clean straw and giving them plenty of fresh water. I always direct my men to speak to the cows as he would to his best girl, especially if he is a single man. There is a good deal in speaking softly and kindly to these animals." Another point brought out was that cows should be fed according to their individual capacity, each one not given the same amount. It also brought out that water should be kept in the barn, care being taken that it was not too cold.

STATE LIBRARY.

Librarian Henry Wants More Money For Expenses Next Year.

Indianapolis, Ind., Dec. 16.—State Librarian W. E. Henry will ask the legislature this winter for an appropriation of \$3,500 for the expenses of the state library. The present appropriation is \$1,000, which Mr. Henry thinks is inadequate. He says that other states have greater appropriations—Ohio setting aside \$3,000, Pennsylvania, \$6,000 and New York \$15,000. Indiana, he thinks, to keep her place, should have at least \$2,500 and for binding her books, for printing and for purchasing new publications.

MICHIGAN CITY HARBOR.

Crumpacker and Steele Desire an Increased Appropriation.

Washington, Dec. 16.—Representative Crumpacker appeared before the river and harbor committee late yesterday afternoon and asked an increased appropriation for Michigan City. He wants a change in the existing project to make the unexpended balance of \$85,000 available, also an additional \$50,000. Representative Steele will argue for the same change next Saturday; also for the Madison, Ind., Merchant's club, who wants improvements on the Ohio river. Madison's representatives will be here Saturday.

ARSENICAL POISON

Young Lady Not Satisfied With Her Beauty May Lose Her Life.

St. Croix, Ind., Dec. 16.—Miss Minnie Frazer of this place, now in her 23d year, is supposed to be dying from arsenical poisoning, brought about by its continuous use since she was 17 years old. Miss Frazer was a remarkably pretty girl by nature's gift, but she wished for a prettier complexion, and resorted to 'arsenic' until its use became a habit.

Pensions Granted.

Washington, Dec. 16.—Pensions have been granted to Indians as follows: Restoration and Supplemental—Charles Drake (dead), Elwood, \$4. BROOKE

Testifies Before the War Investigators as to the Conditions at Camp Thomas.

WAS DUE TO PARSIMONIOUS

Policy of the War Department For Twenty-Five Years—Noticed the One Hundred and Fifty-Seventh Indiana—Looked After Sinks and Kitchens Personally.

Washington, Dec. 16.—Major General John R. Brooke testified before the war investigation commission yesterday that most of the volunteers at Camp Thomas came supposedly with 10 days' rations, but this was the so-called field ration and at first they were hungry. This was remedied by the commissary department quite promptly. The volunteers were supplied with all sorts of tentage, most of it antiquated, their uniforms were old and their equipment in general was what had been accumulated "through the parsimonious policy of the war department through the preceding 25 years." Some were unarmed and some in their citizens clothes with only one blanket.

The whole energies of the commanding officer were bent on equipping this heterogeneous mass of men, but the work was necessarily slow. Early in June the commanding general was ordered to send eight of the best equipped regiments to Tampa, and to do this it was necessary to strip some of the regiments to help out others. Even with this expedient some of the regiments left for Tampa poorly equipped. General Brooke noticed the One Hundred and Fifty-seventh Indiana regiment which left camp with its belts tied together with strings. The war department at this time had exhausted all the canvas and tentage in the country. Canteens, knives, forks, cups and the like were also short and this condition, General Brooke said, continued practically up to the end of his administration at Camp Thomas.

General Brooke said that he had nothing to do with the selection of the camp ground. "I made personal inspections as frequently as his time would permit and made strenuous efforts to regulate the entrance of hucksters to the camp and as a result of this he said that the sick report fell off from 80 to 50 per cent. "I deem it proper to say," continued General Brooke, "in conversations of certain reports that I have heard that I did inspect the camp sinks and kitchens continually."

"We have plenty of testimony before us," said General Dodge, "that you did this frequently."

"It was more than frequently," said General Brooke. "It was daily."

General Brooke said that there was in the beginning a great many complaints of scarcity of medicines, but that the army had abundant food supplies. The army of the Potomac in 1861, he said, was not nearly so well furnished. While there was some shortage in shoes and some varieties of clothing at times, it was only what might have been expected when three armies were being rushed to equipment at three points, Chattanooga, Tampa and San Francisco. He emphatically denied a statement by one of his staff officers that the headquarters camp was in a distinctly filthy condition.

Speaking of the hospitals, General Brooke said: "In justice to myself I should say that the location of the First division hospital was not my own selection. I left this to Colonel Hartshuff, my chief surgeon, and it was the one location I condemned. I visited this hospital and it was working badly, due probably to the surgeon directly in charge."

Governor Beaver read a report from James Parker, sanitary inspector of the Twelfth New York volunteers, detailing an unprintable disgusting state of sanitary affairs at Camp Thomas during General Brooke's incumbency, and General Brooke was asked what he had to say regarding it.

"I will say," he replied, "that it is not only untrue, but if you will give me a copy of that report I will see that that young man goes before a court-martial for those statements, unless he is protected in his testimony by this commission."

General Brooke said he thought he had an efficient staff at Chickamauga. Dr. Huddekooper, who had been subject to severe adverse criticism before the commission and elsewhere, he considered one of the best examples of the volunteer medical officer. He had been criticised because he carried out distasteful orders.

Sigsbee

Hurried to Havana to Take Command of His Ship.

Washington, Dec. 16.—Captain Sigsbee of the Texas has been ordered to Havana by rail and steamer to take command of his ship there. The order is the result of the hasty departure of the Texas under recent orders. Captain Sigsbee was at Albany at the time and the orders to sail were obeyed so promptly that Captain Sigsbee had no time to reach his ship, and in the nautical phrase he and other officers were "left on the beach."

W. T. Woodard a Bankrupt.

Lexington, Ky., Dec. 16.—W. T. Woodard, one of the best known combination horse salesmen in the United States, has filed a petition in bankruptcy. His liabilities are \$40,500; assets, \$1,877. His son, William T. Woodard, Jr., also assigns, with \$9,427 liabilities and no assets.

Bond Thief

Stole \$42,000 of Negotiable Paper. Caught With a Deceitful Letter.

Kansas City, Dec. 16.—Otto Heintz, lately employed as janitor in the Equitable building at St. Louis, was arrested here yesterday charged with the larceny of \$42,000 negotiable bonds from a vault in the office of L. C. Nelson, a tenant of the Equitable building. Heintz disappeared several weeks ago and it was supposed that he had committed suicide. A few days ago Heintz wrote St. Louis parties anonymously, offering to return the bonds for \$18,000. A decoy letter resulted yesterday in the arrest of the supposed suicide. On his person were \$11,000 of the stolen bonds.

For Years Without an Owner.

Pittsburg, Dec. 16.—Major William F. Ault, manager of the Denny estate, has just secured by state patent land in the Fifteenth ward valued at over \$150,000 which has for years been without an owner. It has long been considered as a part of the Denny estate and has been rented for years by the Carnegie Steel company, limited, whose thirty-third street mills are now located on it.

Feature of the Nicholson Law Nullified.

Franklin, Ind., Dec. 16.—The local antislavery league officials appealed to the board of county commissioners to make a record of their remonstrance to granting a liquor license to Isaac McClain in the First ward. McClain gave notice that he would apply for a license, but when confronted by the remonstrance he failed to appear. The board adhered to a former ruling, holding that a man is not an applicant until the meeting of the commissioners. This ruling practically nullifies the 2-year feature of the Nicholson law.

Shot In the Eye and Killed.

Shelbyville, Ind., Dec. 16.—Ira Wilder and Bert McCabe, his nephew, 16 years old, went rabbit hunting yesterday. McCabe shot at a rabbit crouching in a pile of rails, using a rifle, but the bullet was deflected, striking Wilder in the eye and killing him almost instantly. Wilder was a married man with a family near here.

Regular session of city council held last night, all present.

Clerk Jennings read minutes of last meeting which were approved.

The finance committee reported that after a thorough consideration of the claim of W. N. McDonald for \$125 for work done on the city ditch, they believed the claim just and recommended its payment. Report concurred in.

The finance committee reported that there were too many keys to the city offices and by reason thereof there was more gas and fuel used than necessary. Recommended that only the clerk and treasurer be allowed keys and all others be turned in to the mayor. Adopted.

Bartlett reported that he had talked to the water works company about lowering the water plugs that protruded above the sidewalks and that the company asked for time until weather was more favorable. Granted.

Improvement committee reported that they had examined the bids for the sidewalk on North Chestnut street and had awarded the contract to E. G. Weathers, but the same had not been signed. As a private contract had been closed with the owners of abutting property this report was laid on the table.

The city treasurer's report for November showed a balance on hand at last report, \$2501.13, collections during the month amounting to \$4,033.52. Disbursements, \$1,770.84. Balance on hand, \$5,766.46.

Committee recommended that the report of the engineer, that the work was done according to plans and specifications, be so ordered adopted.

Objections to proposed improvement of sidewalk in front of lot 113 on South Chestnut street were called for but none were offered.

On motion of Shepard the floor at foot of stairway in city building ordered repaired. So ordered.

Adjournment at 9 o'clock.

This Is One of The Most Remarkable True Statements On Record. It is made by an Indiana Man.

It has cost \$500 in patent medicines and doctor bills without being cured. One dollar's worth of Morrow Kidney Pills did the work. Many Seymour people are interested in the story of Mr. Jos. Osborn who lives at 625 Jackson St., Columbus, Ind. Listen to the repetition of his case and perhaps you will find you have had a similar experience. "For the past three years I have been afflicted with kidney complaint. My symptoms were as follows: painful kidney backache, urinary disturbance and nervousness from which I was unable to sleep well at night. I had a general broken down condition of my health. My condition was so serious that I would at two weeks from work at a time. I was so weak that I felt unable to perform my daily work. I have taken several kinds of kidney pills and all the various kinds of kidney remedies I ever heard of or read about without being benefited in the least. I have been treated by doctors in this city and by specialists for kidney and bladder trouble without getting any relief. A short time ago I read about Morrow's Kidney Pills and my wife advised me to give them a trial. I got a sample package and used them being greatly relieved in three days time. Up to date I have taken less than a dollar's worth of Kidney Pills and consider myself cured. During the continuation of my illness I have spent fully \$500 in doctor bills and patent medicine which amounted to nothing. This makes quite a striking comparison which is worth your time and consideration. My wife declares that I appear like a new man since my cure. I am more pleasant and agreeable and not so nervous and irritable. I can now also understand our affairs, we are filled with thankfulness to be relieved of this great burden, which made our home miserable and our life a misery."

TO CONFIRM the statement of Mr. Osborn we want you to write to him about Kidney Pills. He is glad to write you how much he was benefited by their use. Do not forget Morrow's Kidney Pills are not kidney pills at all but yellow tablets and are put up in wooden boxes which sell at 25 cents and are never sold in bulk. Morrow's Liver Pills will cure constipation and sell at 25 cents a box. Both these remedies are for sale by all druggists and Alpha Ochs' Drug Store, or will be mailed by the manufacturers on receipt of price. John Morrow & Co., Chemists, Springfield, Ohio.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflammation of the mucous surfaces.

We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Crushed By a Falling Wall

Kills Two Chicago Firemen and Injures Eight Others.

Chicago, Dec. 16.—The collapse of a wall during a fire at a livery stable on Cottage Grove avenue last night killed two firemen and injured a number of others. The dead: LIEUTENANT MATTHEW MEYER, buried by falling wall; instantly killed. FARRAGE O'HARRE, buried by falling walls and killed. The injured—all members of the department: Lieutenant Albert Lingenberger, broken leg, will recover. Michael O'Hara, skull fractured; serious. Thomas Dillon, skull fractured; serious. O. J. Sherrin, bruised about the body. Otto Miller, bruised about the body. Thomas Giletophau, bruised about the body. Edward Creuseau, back broken; may die. Michael Prendergast, cut about head. Edward Morgan, cut and bruised about head by falling bricks. The building was a 2-story brick. The lower floor was occupied by the Palace livery stables, while the second story contained living apartments. The fire broke out in the rear of the building and spread with great rapidity. The firemen had just begun operations and were in the act of raising a ladder when the entire south wall suddenly bulged out, falling upon the men and burying a number of them completely. Their comrades made a desperate effort to get them from under the bricks and timbers and succeeded after a short delay, but by the time they were rescued two were dead and several others may die. The total loss is \$31,000.

Paris Treaty

Has Not Yet Reached Washington. Spanish Prisoners.

Washington, Dec. 16.—The fact that the text of the peace treaty has not yet reached Washington operates to prevent the war department from acting in the matter of repatriating the Spanish prisoners held by General Otis at Manila. Officially the war department does not know that the peace treaty contains any stipulation for the release and return to Spain of these captured Spanish soldiers. It cannot move, therefore, towards releasing the prisoners until the treaty reaches Washington, and its provisions are made known to the department. The prisoners are not suffering meantime, for they have been paroled by General Otis and are receiving shelter and food from the United States military authorities.

What do the Children Drink.

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. Grain-O is made of pure grains and when properly prepared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell it. 35c and 25c.

THE SPEECHES President McKinley has made since he went south to attend the Atlanta jubilee will attract attention throughout the country. His utterances on the present duty of the country in dealing with the questions growing out of the war will be applauded by the people.

CALVIN S. BRICK, ex-United States senator, died at his home in New York city Thursday. He had been one of the leading railroad men of the country for a number of years and was one of the leaders of the democratic party previous to the free silver domination. He was national chairman in 1888.

STATE SENATOR Goss proposes to introduce a bill in the legislature requiring all applications for marriage licenses to be referred to a board appointed by the circuit judge. Such an arrangement would cause a tedious delay in some cases, and might be objected to by some because it would require the parties to gain the "consent" of so many.

MUCH is being said about the advisability of the legislature passing a two cent railroad fare bill. Though it may seem that such a measure would be popular and just, it should be carefully considered. Cheaper railroad fares would probably not help the business interests of the smaller cities and towns for it would be the means of taking more people into the cities to do their trading. The larger cities might be benefited in a business way but whether the general public would be benefited or not is a question for second thought.

The custom of having train dispat-
cher accompany the pay train on the
Pennsylvania lines so as to familiarize
themselves with the condition of the
lines, which was introduced years ago
by J. B. Hutchinson, when division
superintendent, still in vogue with good
results.

A new rule has been established on
the Pennsylvania lines with regard to
employees who are unable to sign their
names to the pay checks. Heretofore
the clerks in the pay cars signed for
such men, but now the men must sign
their names or make their mark, in
case of being unable to write. Some of
the men are afraid that the new rule is
only a step in the way of finally dis-
charging all men who cannot write
their names and they are much wor-
ried over the matter.

article has a double value, for it gives pleasure and
has the advantage of being a necessity and a sav-
